

# Exhibit C

On following pages is an infographic of Bitmain's (owned and controlled by the Zhan Ketuan, the co-founder and CEO of Bitmain/Antminer, who controls Antpool/Antalpah) corporate hierarchy showing the complex offshore structuring -- admitted by Defendant Bitmain Georgia -- and the "comprehensive partnership" (at bottom, in red) identified by Jiaming Li of MineOne in **Exhibit A** and the *Loan and Security Agreement* identified in **Exhibit B**. The contractual interference by Bitmain occurred by way of three primary contracts: the (1) *Service Framework Agreement*, (2) *Operations and Maintenance Service Framework Agreement* and (3) *Loan Security Agreement*. The *Loan and Security Agreement* has not been produced and the only way MineOne will produce this critical document (in full and unredacted form) is by order of the Court.

[An enlarged version of this infographic is contained on the following page for printing/review]

BITMAIN

Manufacturing & Mining

**Micree Zhan (aka Zhan Ketuan)**  
(Chinese: 詹克团)

The co-founder and CEO of Bitmain and sole director of Antpool. **Controls and directs Bitmain, Antpool and AntAlpha**. In 2019, Bloomberg ranks Zhan as the world's 9th richest self-made billionaire aged 40 or younger, with a net worth of US\$5.2 billion. Note how the Bitmain (Antminer), Antpool, and AntAlpha logos, branding, and offshore structuring and naming are all similar.

1. *Service Framework Agreement\** (3/10/23)  
and 2. *Operation and Maintenance Service Framework Agreement\** (3/10/23) [Produced]

MineOne Wyoming  
Data Center, LLC

Financing

**Loan and Security Agreement\*** (7/27/23) [NOT PRODUCED]

\* Red shows the "comprehensive partnership" between MineOne and Bitmain identified in **Exhibit A**, and the *Loan and Security Agreement* identified in **Exhibit B**.

ANTPOOL
